VEHICLE MAINTENANCE IDENTIFICATION APPARATUS

EXAMINER'S COMMENT

The Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth below. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because it does not identify the city and either state or foreign country of residence of each inventor. The residence information may be provided on either on an application data sheet or supplemental oath or declaration.

Also, the oath or declaration is defective because it does not identify the mailing address of each inventor. A mailing address is an address at which an inventor customarily receives his or her mail and may be either a home or business address. The mailing address should include the ZIP Code designation. The mailing address may be provided in an application data sheet or a supplemental oath or declaration. See 37 CFR 1.63(c) and 37 CFR 1.76.

EXAMINER'S AMENDMENT

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to the Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims

Cancel claims 34 and 35. (Said claims were non-elected without traverse.)

REASONS FOR ALLOWANCE

The following is an Examiner's statement of reasons for allowance:

Claim 1 has been found to be allowable over the prior art because the prior art fails to teach or suggest a vehicle maintenance apparatus comprising a means associated with a mat for (interpreted under 35 USC 112, sixth paragraph) receiving a material exuded by a vehicle system and "identifying the vehicle system from which the material was exuded".

Claims 2-15 have been found to be allowable over the prior art due to said claims' dependency on claim 1.

Claim 16 has been found to be allowable over the prior art because the prior art fails to teach or suggest a vehicle maintenance apparatus comprising a mat having a stenciled region correlating to a vehicle system wherein the stenciled region defines an area for receiving and "identifying a material exuded from the vehicle system".

Claims 17-29 have been found to be allowable over the prior art due to said claims' dependency on claim 16.

Claim 30 has been found to be allowable over the prior art because the prior art fails to teach or suggest a method for identifying a problem with a vehicle system comprising providing a mat having a stenciled region correlating to a vehicle system wherein based on position of a material exuded from the vehicle in relation to the stenciled region, "identifying the vehicle system from which said material was exuded".

Claims 31-33 have been found to be allowable over the prior art due to said claims' dependency on claim 30.
